

# Join our Research Study about Addiction and the Immune System

UAB researchers are studying the immune system in individuals:

- Between the ages of 19–64 years
- With a history of injection drug use

What will the study involve?

- Surveys and questionnaires
- Brief physical exam
- Routine vaccinations
- Oral medication
- Blood draws
- Urine tests
- Saliva samples

Participation will last 6 months with:

- 9 in-person visits
- 14 virtual visits

Eligible participants may earn up to \$1575 total.
