CCTS and the Clinical Trials Initiative
Enterprise-wide project support resources

CCTS

SMART IRB

The Trial Innovation Network is a new collaborative initiative within the CTSA Program and is composed of three key organizational partners – the CTSA Program Hubs, the Trial Innovation Centers (TICs), and the Recruitment Innovation Center (RIC). All are key partners of the Trial Innovation Network and make unique and essential contributions. Other important partners include NIH Institutes, other federal and non-federal stakeholders, researchers, patients, providers, and the public.

Contact: Frannie Horn at 934-3980

TriNetX

TriNetX is the global health research network enabling healthcare organizations, biopharma and contract research organizations (CROs) to collaborate, enhance trial design, accelerate recruitment and bring new therapies to market faster.

Contact: Swathi Thaker at 975-9573

XpertTrial

XpertTrial is a clinical trial database management, search engine, and patient recruiting platform custom built for each hospital system.

Contact: Swathi Thaker at 975-9573

Southeast Health Alliance for Research (SHARe)

- Auburn University
- Hudson Alpha Institute for Biotechnology

i2b2
Data-warehouse for integrating clinical and research data

i2b2 is a self-service tool that enables researchers to access EHR data in the Cerner system significantly faster than requesting data from Enterprise Data Warehouse analysts. Investigators can use i2b2 for generating hypotheses, estimating cohort size, exploring recruitment potential, and conducting simple data analyses suitable for correlational and retrospective studies.

Contact: Matt Wyatt at 934-0660

CRSP

Our Clinical Research Support Program provides a pool of trained, certified research nurses and coordinators to assist you with study implementation Services include organizational and budget management, regulatory support, internal quality measures and communications with sponsors.

Contact: Meredith Fitz-Gerald at 934-3777

ClinicalTrials.gov

ClinicalTrials.gov is a database of privately and publicly funded clinical studies conducted around the world. The NIH mandates registration and results reporting for clinical trials funded in whole or in part by NIH.

Contact: Denise McKenzie at 934-8365

POWERTRIALS

Application within Cerner to enable transparency between clinical research and clinical care with patient flagging within EHR for safety & compliant billing purposes

Contact: Alicia Martin-Gunter at 996-8763

Freely available for institutions and investigators, SMART IRB is an integrated, comprehensive platform that allows flexibility in the size and scope of collaboration to enable IRB reliance for multisite studies across the nation, regardless of funding status
