

EXPEDITIONS

Dissemination | Implementation | Translation | Innovation

Maternal and Child Health

Tuesday, November 18, 2025
12 - 1pm (CT)
via Zoom

Join us for the next CCTS ExpeDITions Forum as we explore dissemination and implementation efforts in maternal and child health. **Dr. Rachel Sinkey** will highlight the POPPY initiative—Providing an Optimized and Empowered Pregnancy for You—and **Drs. Emily Harville and Kirsten Dorans** will share insights from the Southern Center for Maternal Health. This session offers a valuable look at how research and policy are being translated into improved care across the region.

Whether you are working in clinical care, public health, or research, this session is a chance to engage with new ideas and collaborators across the CCTS Partner Network.
