

Translational Research  
**SUMMER SERIES**

**Wednesdays 3:30 PM - 4:30 PM**

**Sessions held Via Zoom**

**Visit [go.uab.edu/summerseries](https://go.uab.edu/summerseries) to register**

Session Date	Session Title	Speaker(s)
June 4th, 2025	What Is Translation/Crafting The Blueprint: Developing Your Standout Research Question	Anne Russell, PhD / Joe Chiles, MD
June 11th, 2025	Study Design, Analytic Methods & Data Management	David Redden, PhD
June 18th, 2025	Essentials of Epidemiology and Population Health/EHR Data Access	Amanda Anderson, PhD / R. Dale Johnson, MS
June 25th, 2025	Introducing Clinical Trials	Marty Solomon, MD
July 2nd, 2025	D&I Considerations at Each Translational stage/ Community-Engaged Research	Katherine Mills, PhD / Kimberly McCall, PhD
July 9th, 2025	Team Science: Building Effective Translational Teams	Joel Dobbs, PharmD
July 16th, 2025	Spreading Your Message: Learning The Art of Scientific Writing	Sarah Sharman, PhD
July 23rd, 2025	Been There, Done That: I Can Tell You All About The Career Journey	Viral Jain, MD / Lindsey Hohmann, PhD

**Vision**

The Translational Research Summer Series program provides precursory skill training for scientists and research professionals who are in the formative stages of their translational research careers. The Summer Series will create a foundation that will prepare students for success.

**Series Description**

The Translational Research Summer Series is a program designed for those interested in advancing their knowledge of translational research. The program covers topics such as biostatistics, epidemiology, community research, and team science, and are taught by experienced faculty and senior leaders. Participants will gain key skills that can be applied to their academic and professional endeavors.
