Essential Information for Principal Investigators at UAB

Calling All PIs! | The CCTS Clinical Investigator Training Program (CITP) is a five-week course on the roles and responsibilities of principal investigators in clinical research. Designed for MDs, DOs, DMDs, and PhDs, this program enhances investigator awareness of the administrative infrastructure supporting clinical research at UAB and promotes its effective utilization to enable efficient time-to-trial-activation. **The program begins October 28th.** [Learn more](#), [apply by October 24th](#).

Introducing CReSt: A Unified Approach to Clinical Research Support | UAB has launched the **Clinical Research Support Enterprise (CReSt)**, combining two longstanding programs—CRE and CRSP—into one streamlined structure to better support clinical research from startup to close-out. With nearly 70 professionals and three core operational pillars, CReSt is built to enhance collaboration, efficiency, and impact across campus and partner sites. [Learn more](#) and [contact CReSt](#) with any questions.

Best Practices for Informed Consent | Presented by the Trial Innovation Network (TIN), this webinar introduces the Informed Consent Guidance Manual and strategies to support a person-centered consent process. Learn how to ensure participant comprehension, apply best practices, and access supplemental resources. **September 17, 11 am (CT) via Zoom.** [Learn more](#), [register now](#).
