Subclavian steal stenosis, subclavian steal syndrome CT Angio Chest (arterial, ROI: Descending aorta) Suspected BOS in lung Tx patients HRCT prone, inspiration, expiration Suspected bronchiectasis HRCT supine, inspiration only Suspected small airway obstructive disease HRCT supine, inspiration, expiration Suspected tracheobronchomalacia HRCT supine, inspiration, expiration Endyne protocol for mitral valve replacement (MVR), percutaneous MVR, or mitral regurgitation CT Cardiac w (Tendyne Protocol) (Non-con chest, retrospectively gated heart) TOS (Thoracic outlet syndrome) CT Angio Chest wo/w (TF arterial on Siemen Force/Alpha, venous above shoulder to carina) TVR, tricuspid valve replacement (Only done at TKC) CT Cardiac w (TTVR Protocol) (Non-con gated chest, retrospectively gated cardiac, venous)	Pulmonary shunting, pulmonary AVM	CT Angio Chest wo/w (Arterial, timed as PTE CTAs)
Suspected BOS in lung Tx patients HRCT prone, inspiration, expiration Suspected bronchiectasis HRCT supine, inspiration only Suspected small airway obstructive disease HRCT supine, inspiration, expiration Suspected tracheobronchomalacia HRCT supine, inspiration, expiration HRCT supine, inspiration, expiration HRCT supine, inspiration, expiration Tendyne protocol for mitral valve replacement (MVR), percutaneous MVR, or mitral regurgitation TC Cardiac w (Tendyne Protocol) (Non-con chest, retrospectively gated heart) TOS (Thoracic outlet syndrome) TTVR, tricuspid valve replacement (Only done at TKC) CT Cardiac w (TTVR Protocol) (Non-con gated chest, retrospectively gated cardiac, venous)	Septic Emboli	Consult Radiologist
Suspected bronchiectasis HRCT supine, inspiration only Suspected small airway obstructive disease HRCT supine, inspiration, expiration Suspected tracheobronchomalacia HRCT supine, inspiration, expiration Fredyne protocol for mitral valve replacement (MVR), percutaneous MVR, or mitral regurgitation CT Cardiac w (Tendyne Protocol) (Non-con chest, retrospectively gated heart) TOS (Thoracic outlet syndrome) CT Angio Chest wo/w (TF arterial on Siemen Force/Alpha, venous above shoulder to carina) TVR, tricuspid valve replacement (Only done at TKC) CT Cardiac w (TTVR Protocol) (Non-con gated chest, retrospectively gated cardiac, venous)	Subclavian steal stenosis, subclavian steal syndrome	CT Angio Chest (arterial, ROI: Descending aorta)
Suspected small airway obstructive disease HRCT supine, inspiration, expiration Suspected tracheobronchomalacia HRCT supine, inspiration, expiration Tendyne protocol for mitral valve replacement (MVR), percutaneous MVR, or mitral regurgitation CT Cardiac w (Tendyne Protocol) (Non-con chest, retrospectively gated heart) TOS (Thoracic outlet syndrome) CT Angio Chest wo/w (TF arterial on Siemen Force/Alpha, venous above shoulder to carina) TVR, tricuspid valve replacement (Only done at TKC) CT Cardiac w (TTVR Protocol) (Non-con gated chest, retrospectively gated cardiac, venous)	Suspected BOS in lung Tx patients	HRCT prone, inspiration, expiration
Suspected small airway obstructive disease HRCT supine, inspiration, expiration Suspected tracheobronchomalacia HRCT supine, inspiration, expiration Tendyne protocol for mitral valve replacement (MVR), percutaneous MVR, or mitral regurgitation CT Cardiac w (Tendyne Protocol) (Non-con chest, retrospectively gated heart) TOS (Thoracic outlet syndrome) CT Angio Chest wo/w (TF arterial on Siemen Force/Alpha, venous above shoulder to carina) TVR, tricuspid valve replacement (Only done at TKC) CT Cardiac w (TTVR Protocol) (Non-con gated chest, retrospectively gated cardiac, venous)	Suspected bronchiectasis	HRCT supine, inspiration only
Suspected tracheobronchomalacia HRCT supine, inspiration, expiration Tendyne protocol for mitral valve replacement (MVR), percutaneous MVR, or mitral regurgitation CT Cardiac w (Tendyne Protocol) (Non-con chest, retrospectively gated heart) TOS (Thoracic outlet syndrome) CT Angio Chest wo/w (TF arterial on Siemen Force/Alpha, venous above shoulder to carina) TTVR, tricuspid valve replacement (Only done at TKC) CT Cardiac w (TTVR Protocol) (Non-con gated chest, retrospectively gated cardiac, venous)		
TOS (Thoracic outlet syndrome) CT Angio Chest wo/w (TF arterial on Siemen Force/Alpha, venous above shoulder to carina) TTVR, tricuspid valve replacement (Only done at TKC) CT Cardiac w (TTVR Protocol) (Non-con gated chest, retrospectively gated cardiac, venous)	Suspected tracheobronchomalacia	HRCT supine, inspiration, expiration
TOS (Thoracic outlet syndrome) CT Angio Chest wo/w (TF arterial on Siemen Force/Alpha, venous above shoulder to carina) TTVR, tricuspid valve replacement (Only done at TKC) CT Cardiac w (TTVR Protocol) (Non-con gated chest, retrospectively gated cardiac, venous)	·	
TTVR, tricuspid valve replacement (Only done at TKC) CT Cardiac w (TTVR Protocol) (Non-con gated chest, retrospectively gated cardiac, venous)
