OVERVIEW OF THE SCHOOL OF HEALTH PROFESSIONS

The UAB School of Health Professions (SHP) is one of the largest academic institutions of its type in the United States. What began in the 1950s as a collection of training programs in various para-professional disciplines has grown into an internationally recognized center of academic and research excellence.

Today, we have five academic departments – Clinical and Diagnostic Sciences, Health Services Administration, Nutrition Sciences, Occupational Therapy, and Physical Therapy – that are housed in four buildings: Susan Mott Webb Nutrition Sciences (WEBB), Learning Resource Center (LRC), the School of Health Professions (SHPB), and the Center for Biophysical Sciences and Engineering (CBSE).

We are proud of many accomplishments including:

- *U.S. News & World Report* ranks all eligible SHP programs in the nation's top 25.
- Research funding is at an all-time high of \$26+ million and growing.
- Nearly 10 of our programs you will only find in Alabama at UAB.
- Our school has never been stronger or better positioned as a national leader in health professions education. And this status will only grow stronger as we continue to welcome students like you.

ACADEMIC INTEGRITY CODE

The University established a new Academic Integrity Code effective August 23, 2021. This Code, which applies to undergraduate, graduate, and professional students as well as all academic activities, defines academic misconduct and outlines procedures for breaches of the code. Policies are established for resolution of charges of academic misconduct, and these processes are managed by the Academic Integrity Coordinator (AIC). In the School of Health Professions, the AIC is the Associate Dean for Academic and Faculty Affairs, the office is located in SHPB 660. The full text of the Academic Integrity Code is available at: [Academic Integrity Code](#).

ATTENDANCE

Class attendance is expected in all SHP programs. Specific class, laboratory, or clinical site attendance requirements may be more stringent than university guidelines. Refer to the program requirements in this handbook and in course syllabi for policies. The UAB attendance policy is as follows:

The University of Alabama at Birmingham recognizes that the academic success of individual students is related to their class attendance and participation. Each course instructor is responsible for establishing policies concerning class attendance and make-up opportunities. Any such policies, including points for

attendance and/or participation, penalties for absences, limits on excused absences, total allowable absences, etc., must be specified in the course syllabus provided to students at the beginning of the course term. Such policies are subject to departmental oversight and may not, by their specific prescriptions, negate or circumvent the accommodations provided below for excused absences.

The University regards certain absences as excused and in those instances requires that instructors provide a reasonable accommodation for the student who misses assignments, presentations, examinations, or other academic work of a substantive nature by virtue of these excused absences.

Examples include the following:

- Absences due to jury or military duty, provided that official documentation has been provided to the instructor in a timely manner in advance.
- Absences of students registered with Disabilities Services for disabilities eligible for “a reasonable number of disability-related absences” provided students give their instructors notice of a disability-related absence in advance or as soon as possible.
- Absences due to participation in university-sponsored activities when the student is representing the university in an official capacity and as a critical participant, provided that the procedures below have been followed:
 - Before the end of the add/drop period, students must provide their instructor a schedule of anticipated excused absences in or with a letter explaining the nature of the expected absences from the director of the unit or department sponsoring the activity.
 - If a change in the schedule occurs, students are responsible for providing their instructors with advance written notification from the sponsoring unit or department.
- Absences due to other extenuating circumstances that instructors deem excused. Such classification is at the discretion of the instructor and is predicated upon consistent treatment of all students.
- Absences due to religious observances provided that students give faculty written notice prior to the drop/add deadline of the term.

In these instances, instructors must give students the opportunity to complete assignments in a way that corresponds as much as possible to the nature, scope, and format of the original. Options may include making up exams or other assignments, rescheduling student classroom presentations, or arranging for early or late submission of written assignments. The course make-up policy should be included in the syllabus.

BACKGROUND CHECK AND DRUG SCREEN POLICY

Students in SHP programs are required to undergo a background check and drug screen using the school's approved vendor, [CastleBranch](#), at the time of program admission, and again, prior to placement in a fieldwork placement (clinical, internship, practicum, residency, etc.). Additional checks/screens may be required by the individual sites therefore, students should work with the program to ensure compliance requirements are met. Instructions for requesting the background check and drug screens are provided to students by their programs. Students enrolled in SHP undergraduate programs will complete a learning module in the campus learning management system by the first semester of enrollment.

The Office of Academic and Faculty Affairs is responsible for ensuring student compliance throughout the program. Students found to be non-compliant will not be allowed to matriculate in the program (orientation, attend class, fieldwork placement, etc.) until all requirements are met. Program Directors, Fieldwork Coordinators, and students will be notified of non-compliance and a hold will be placed on the students' account.

- Fees for these screenings will be the responsibility of the student.
- The rules and regulations governing individual fieldwork placement sites may include additional provisions and/or more stringent guidelines which supersede this policy. Fees for these screenings are the responsibility of the student.
- Should your criminal background check contain issues, or if you fail a drug screen that may prevent you from receiving or sitting for board certification/licensure, a representative from the Office of Academic and Faculty Affairs will contact you. Depending upon the outcome, students will have a registration hold placed on their account until in compliance and this may result in being dismissed from the program. See program's guidelines regarding specific consequences.

Programs requiring a criminal background check and drug screening by the end of the first semester of enrollment and again, prior to fieldwork placement (if applicable in the program requirements), are the following:

DEGREE REQUIREMENTS

STEPS TO COMPLETING CERTIFICATE OR DEGREE

A summary of the steps required for the Graduate Certificate or Master of Science in Healthcare Simulation:

1. Admission to program,
2. Adherence to academic performance policy (see section on academic performance),
3. Satisfactory completion of coursework,
4. Application for certificate or degree – no later than two weeks into the expected term of graduation,
5. Completion of all financial obligations to the University of Alabama at Birmingham, and
6. Conferring of certificate or degree.

ATTENDANCE AND CONTRIBUTION

As appropriate, you are to attend all class meetings as defined by your instructors and the Program (on- campus visits and synchronous web-enabled instructor/student meetings) and other planned meetings (e.g. teams). If you must miss a class meeting, inform your instructor in advance, or as soon as practical. It is the Program's expectations that you:

- Are prepared and participate in all class sessions/activities/assignments (synchronous and asynchronous).
- For synchronous classes, you should be on time and should not expect to leave early. Showing up late and "slipping away early" are unacceptable behaviors.
- Engage instructors and peers in meaningful discussion of the class topics. Participants must be engaged and make significant contributions.
- Come to class prepared to contribute meaningfully in discussions. Class assignments are akin to business work assignments.
- Ask questions to seek understanding. It is the student's responsibility to explore ways to comprehend the material, if he or she does not understand an assignment or topic.

If enrolled in the Simulation Intensive section of the program:

- You are to attend the on-site intensive during the semester of enrollment. Failing to attend an on-site session is equivalent to missing a term's worth of work.
- If you anticipate an emergency call, set the device to vibrate. The use of cell phones for talking and/or text messaging in class is not allowed.

DISTANCE LEARNING AND CANVAS

Each course will employ a variety of distance-learning instructional methods. Course requirements may involve reading selections from texts, periodicals, and empirical literature; participating in online discussions with instructors and fellow students; conducting applied projects; writing research papers; and completing assignments that are designed to reinforce course principles and analytic skills. Students will access course materials, syllabi, readings, assignments, etc. via the online Canvas system or through the UAB library system. Canvas course sites can be accessed through BlazerNET or at www.uab.edu/canvas. Students should monitor their course sites routinely for communication from faculty and to manage course assignments. Course sites are available on the first day of class each semester.

Assignments and due dates will be described in the course syllabus at the beginning of each semester. Course materials (including readings, assignments, and course announcements) will be available on Canvas. Students are responsible for accessing Canvas on a regular basis and are

expected to be aware of all assignment due dates. Assignments should be submitted via Canvas. Email is not a reliable method for submitting assignments and is discouraged for this purpose. Canvas has an email feature that should be used for all communication with instructors.

Communication between students and instructors is key to the success of any distance-learning activity. Instructors are accessible via email, phone call, and/or video conferencing during the off-campus portion of the course. Additionally, faculty are in the office regularly and you are encouraged to visit with them in person as geography permits. Please refer to the course syllabus for contact information and details regarding instructor availability and communication expectations.

Some courses may have synchronous sessions that require attendance/participation. Each course syllabus will have scheduled dates/times and attendance requirements.

ACADEMIC INTEGRITY

The graduate programs in Healthcare Simulation follow the [University's Academic Integrity Code](#).

GENERATIVE AI AND UAB POLICY

With the increasing prevalence and capabilities of AI tools, it is important to address the appropriate use of AI in academic coursework. The use of AI tools for assignments is at the discretion of individual instructors. If not addressed in the syllabus, students should consult their instructor directly about the AI policy for that course. Some uses may be permitted while others restrict use to ensure academic integrity. For general UAB guidelines on responsible AI use in academics, refer to the UAB policy: [Generative AI and UAB policy - AI](#)

ACADEMIC PERFORMANCE

To be in good academic standing in the Graduate School, a student must maintain a grade point average of at least 3.0 (on a 4.0 scale). Students are dismissed upon earning the second "C" through the life of the Program. Any courses that are being transferred in (such as certificate courses) in which a "C" was earned count toward this rule. Students will be considered to be making satisfactory progress toward the certificate or degree if they follow the prescribed course sequence established by the Program. Students whose schedules vary from the sequence must discuss this variance with the Program Director.

Students who are admitted on probation must demonstrate their ability to perform at the level required for graduation by establishing good academic standing at the end of the first semester of academic coursework. Students who do not accomplish this level of performance will be dismissed from the Program and the UAB Graduate School.

A student who has been in good academic standing, but who at the end of any regular term fails to meet the criteria to continue in good academic standing (a 3.0 grade point average or better), will be placed on probation. Such a student must re-establish good academic standing within the next two regular terms of graduate study undertaken. Students who do not accomplish this level of performance will be dismissed from the Program and the UAB Graduate School.

A student who earns two grades of "C," or a grade of "F" on any course taken in pursuit of the Healthcare Simulation degree will be dismissed from the Program. However, in the event of extenuating circumstances, the program director reserves the right to exercise discretion and may make exceptions to this policy on a case-by-case basis. It is the Program Director's prerogative to decide if a student may enter his/her final project with a grade point average of less than 3.0 in academic coursework needed to complete the Healthcare Simulation degree. A student receiving a grade of "I" in a course has until the end of the following semester to remove the deficiency or the grade is automatically changed to an "F."

It is the student's responsibility to keep track of this timing and avoid this from happening. Once the "I"

has rolled over to an "F," it will not be changed.

TIME LIMITATIONS

Healthcare Simulation students are generally expected to complete all degree requirements within 3 years of matriculation for master's students. If mitigating circumstances preclude completion of requirements within the time limits, please contact the Program Director with a request for extension that includes a plan and timeline for completion. This plan will be submitted to the Graduate School for approval. The time of degree cannot exceed five years.

REGISTRATION

It is each student's responsibility to register for the appropriate courses. Students are expected to register through the UAB registration portal on BlazerNet (<https://uab.edu/blazernet>). Registration may commence as soon as the student has received notification of admission from the Graduate School, but no sooner than 60 days before classes are to begin. Continuing students should register before final exams in their current semester. Certain courses will require an "override" by Program staff and it is the responsibility of the student to contact the appropriate person to perform that override. Because of this need, it is **strongly recommended** that students register as early as possible and not wait until the last minute. We will not waive late registration fees. BlazerNET is available 24/7, but the Add/Drop function within Registration Tools will end when the registration period closes. Students experiencing difficulty (outside of overrides) with BlazerNET should call the Registrar's Office at 1.205.934.8228 or email registrar@uab.edu.

FOLLOW THESE STEPS TO REGISTER USING BLAZERNET:

1. Access BlazerNET with your web browser.
2. Log in with your Blazer ID and strong password.
3. Click on the Registration tab
4. View the Registration Tools channel. Select either Look Up Classes to gather CRNs or Add or Drop Classes if you already have the course reference numbers.
5. Register for the appropriate courses by either clicking the checkbox to the left of the course on the Look Up Classes screen, or by submitting the CRNs in the blocks on the Add or Drop Classes page.
6. Please make sure that your course schedule states “Web Registered” and that you can view all of your classes on the Student Detailed Schedule page.

LATE REGISTRATION (ADD/DROP CLASSES)

Starting with the first day of regular classes, a late registration fee will be charged. Please see the UAB Academic calendar for the last day to Add/Drop classes.

STUDENT HANDBOOK

The student handbook will be updated on an annual basis and is subject to change.
